

## Encounter – May 6<sup>th</sup> This week – Rainbows!

There are rainbows in many windows at the moment to show our support for our amazing NHS workers. Here are some ideas of different ways of making your own rainbow to display in YOUR window!

**Collage** – this one uses buttons, foam pieces, pom-poms, card and tissue paper. Anything can be used in collage!

**Printing** – this uses plastic mini eggs but you could try so many things, such as corks ends, bottle tops, mini stampers, pencil ends, fingertips...anything you dip in paint and press down on the paper!

use  
can

**Painting** – here, cotton buds are dipped in paint, held together and used to draw the rainbow arch all at the same time

There is a rainbow template attached

# HAVE FUN!!
