

Oasis Craft – 23rd July This week – Crafty Cupcake Cases

These are available plain or in lovely patterns and are a great material for making lots of fun crafts!

Funky Fish

Cases folded in half or cut into thirds make lovely fins, a tail and rippled scales on the side of this simple fish.

These pretty trees are made of folded cases in bright colours. You could use them as part of a larger collage or stick them on both sides of a lolly stick and fix into a playdough base to create a little scene.

Fabulous Fir Trees

Curly Octopus

An upturned case makes the body of this sweet little octopus and strips of paper curled around a pencil are ideal for the tentacles. (Draw on the eyes if your child is too young for googly eyes).

Cheeky Turtle

Cut two strips of card for this cute turtle's legs and an oval for her head. Keep the cupcake case in shape and stick the crossover of the legs and then the head inside. You could use different-sized cupcake cases to create a little family of turtles!

Bouncy Balloons

These are just flattened out cases laid out to overlap on the paper. Stick down ribbon or even string from each of them and secure at the bottom to make a beautiful bunch of bright balloons.

Alternatively, your little one could stick one flattened case onto a piece of blue card with a brown card square beneath it as the basket of the hot air balloon. Add string to join them together and then your child can draw a little face peeping out of the basket!

Hot Air Balloon

HAVE FUN!!
